

Event

```
graph BT; FG[\"FrightenGhostsEvent\"] --> E[\"Event\"]
```

A UML class diagram illustrating inheritance. At the bottom is a gray rectangular box labeled "FrightenGhostsEvent". A vertical blue line with an arrowhead at the top points from this box to a white rectangular box labeled "Event" positioned above it. The arrow indicates that "FrightenGhostsEvent" inherits from "Event".

FrightenGhostsEvent
